#### NO PAPER TOMORROW.

Tomorrow being Thanksgiving there will be no issue of the Telegrom, as the day will be observed by this office with all others of Clarksburg. In this connection it may not be amiss to state that this pape is very thankful for the extensive patronage it has received since the last annual event of the kind and that it duly appreciates it all.

#### MALICE PROMPTS NEWS.

If the News would but familiar-ize itself with the incidents it forms as a basis for berating city officers. it might not fall into the habit of making so many malicious representations, though there are but few who believe it to be honest in the the Lord. slightest degree, and especially do not those who know it best.

For instance, the chief of police is berated for something, which is

pronounced false by at least two or three persons besides himself, He denies and is supported by these men, whose veracity has never been a matter of dispute or question, that he took any prisoner from a con-stable or other state officer. Nor did he rush any prisoner off to an attorney, and he says he protected none such from the law, though he may have seen that such prisoner had fair play, considering the stories of blackmail that had come to his ear, whether true or not, and the Telegrom does not here undertake to say they are true for the simple reason it does not know. Has the News ever made any attempt to get his side of the story? Does it care to know? Answer.

The arrest of the negro, whether affected or not by the officer being led by a citiben to the fellow, does not warrant such uncalled for statements from the News. It is a well known fact that he was arrested and fined to the limit by the mayor, and that will be prosecuted by the state Is the News doing the prosecuting? No! Republican officials are doing it, not because he is a negro! But because it is believed that he merits and should be punished. Why should officers be berated, when the criminal is under arrest and serving sentence? Are officers to be condemned because of such facts, even if a crime happens, which they do not personally see and are assisted by others to find the criminal?

The vandalism the News magnifies is a good deal like a fire. The fire department is not on the scene when the fire starts and can not be

Criticism inspired by design seldom proves itself effective. The spirit of the critic is usually his own spirit of the critic is usually his own undoing. A far better plan to accomplish good it to make suggestions will start promptly at 3 o'clock. The Complish good it to make suggestions will start promptly at 3 o'clock. The Tigers are being fed raw meat daily of a friendly nature and not to array one's self against others because they do not the things one may think ought to be done. The criticism made by some of the city administration is not meant for the improvement of conditions, but is made in the lone of demoralizing it, and, if M'CLUNG IS GHARGED possible, to overthrow it that others may take up the reins of governmen and bring about conditions that will be unendurable. What have the critics to offer in place of the things they are displeased with? Have they are displeased with? Have they made a single suggestion, or have they even attempted to make such suggestion? The fact that they have not is evidence sufficient that their purpose is not one intended to benefit the people.

Thanksgiving, of course, is meant to be a festal day, but it has a great-er meaning. At this period of the year, when the harvests are all over and the crops are garnered, the peoole are wont to gather and rejoice and it is right they should. But there is a more significant meaning one of greater importance, and that is it is a day set apart especially for giving expression of gratitude to the Great Giver of all gifts, the Lord and in our festive hours, we should not forget to render unto Him fitting tribute. The churches have prepared the way for this and it is urged that all attend the services of the day, but those who fail to attend need not forget the meaning of the day, or neglect to give thanks unto

## AND NOT PRISONER

The cases against Jesse Craig and others, charged with highway robbery and assaulting and beating two Slavs, were continued Tuesday even-ing by Justice M. S. Riley until next Tuesday.

Walter Maulsby appeared as a witness and was not under arrest as was reported, the constable making a wrong impression in this respect though without intention. It seems Maulsby had been to the city and was riding home horseback, and arrived on the scene, when the fight took place. He merely stopped and watched them, and did not take a moned as a witness and came up on the evening train.

### FOOTBALL TOMORROW

Though the Yale-Harvard game closed the football season in and lowed itself to magnify the situation. The truth of the matter is that the number, it is our opinion has decreased.

All in all, the News in its willingness, even eagerness, to bring discredit on the officers and give Clarksburg a black eye, does not confine itself to veracity, and makes such a bungle of it that no one gives it any eredence, not even those who are in sympathy with bettering conditions.

Criticism inspired by design seldom proves itself effective. The spirit of the critic is usually his own well-aims. A few leiter plan to accommend to the field so as to make it convenient for ladies.
